

Mr. Fadi Chehadé , President and CEO, ICANN
Mr. Steve Crocker, Chairman of ICANN Board,
Mr. Cherine Chalaby, Chairman of New gTLD programme Committee
Mr. Thomas Schneider, Chair of Governmental Advisory Committee

October 6, 2015

Dear Sirs,

Sub.: New gTLD application for .tata - APPLICATION ID: 1-1720-93817 – Reconsideration Request from Director Digital Economy, Ministry of Industry, Trade, Investment and Digital Economy, Kingdom of Morocco

We refer to our various communications on the above referred Reconsideration Request received by you from a Ministry in Kingdom of Morocco pursuant to which our application has been kept “On Hold” and we are being denied our rightful claim to obtain registration of the gTLD .tata.

Background

1. After the Initial Evaluation of our application, we were informed that in terms of Section 2.2.1.4.2 of the Application Guide Book our gTLD string is an exact match of a geographic name (“Tata” being name of a province in Morocco listed in ISO-3166-2 standard) and we need to attach documentation of support or non-objection from the relevant government or public authorities in Morocco.
2. After painstaking efforts, we obtained and submitted the said documentation dealing with the issue of registration of .tata gTLD from the Moroccan Authority of Trademark Rights, Kingdom of Morocco the official body under the Ministry of Industry, Trade and Upgrading of the Economy, in June 2014.
3. After evaluating the said documentation issued by the concerned Moroccan Authorities, ICANN informed us that our application has cleared the Extended Evaluation.
4. We then completed the procedure regarding submission of CIR and also applied under Specification 13 since our application is strictly a .Brand application.
5. We were subsequently informed that our application has been put “On Hold” (due to it being involved in ICANN accountability mechanism resulting from the above reconsideration request of Moroccan government officials). Since then the application is ‘On Hold’ and ICANN has once again requested us to obtain and re-submit the required documentation.

We are aggrieved at the denial to proceed further with the gTLD allotted to us after due process and list out hereunder relevant facts for reconsideration.

Tata Group – a brief introduction

Founded by Mr Jamsetji Tata in 1868, the Tata group is a global enterprise comprising of over 100 operating companies, with operations in more than 100 countries across six continents, exporting products and services to over 150 countries.

TATA SONS LIMITED

Bombay House 24 Homi Mody Street Mumbai 400 001
Tel 91 22 6665 8282 Fax 91 22 6665 8080 e-mail tatasons@tata.com
website www.tata.com CIN U99999MH1917PLC000478

Good corporate citizenship is a part of the Tata group's DNA. Sixty six percent of the equity share capital of Tata Sons, the promoter holding company, is held by philanthropic trusts, which receive a significant amount of dividend from Tata Sons, thereby returning wealth to society. As a result of this unique ownership structure and ethos of serving the community, the 'Tata' name has been respected for more than 140 years and is trusted for its adherence to strong values and business ethics.

Many Tata companies have achieved global leadership in their businesses. For instance, Tata Consultancy Services ("TCS") is amongst the top 10 global IT services companies; Tata Communications is the world's largest wholesale voice carrier; Tata Motors which owns Jaguar Land Rover, is among the top five commercial vehicle manufacturers in the world; Tata Steel is among the top 10 best steelmakers; . Tata Global Beverages, the owner of Tetley is the second-largest player in tea in the world and Tata Chemicals is the world's second-largest manufacturer of soda ash. Employing a diverse workforce in their operations, Tata companies have made significant local investments in different geographies.

The presence of Tata group is a well-established fact, which gets substantiated from its global takeovers, acquisitions and new ventures. Some of these are as follows:

- **JAGUAR/ LAND ROVER:**

Tata Motors bought the Jaguar and Land Rover brands from the US auto giant, with large plants in the UK from Ford in June 2008 for about \$2.3 billion. Jaguar Land Rover is the UK's largest automotive manufacturing business, built around two iconic British car brands: Land Rover, the world's leading manufacturer of premium all-wheel drive vehicles and Jaguar, one of the world's premier luxury sports saloon and sports car marques. They employ around 29,000 people globally and support around 190,000 more through our dealerships, suppliers and local businesses. Last year Jaguar Land Rover sold 425,000 vehicles in more than 170 countries.

- **TATA STEEL EUROPE (FORMERLY KNOWN AS "CORUS"):**

Tata Steel Europe (formerly Corus) is Europe's largest steel maker, with operations in the UK and mainland Europe. Tata Steel Europe was acquired by Tata Steel in January 2007. With main steelmaking operations in the UK and the Netherlands, Tata Steel Europe supply steel and related services to the construction, automotive, packaging, lifting & excavating, energy & power, aerospace and other demanding markets worldwide. After the Corus acquisition, Tata Steel became one of the world's top ten steel producers. The combined group has an aggregate crude steel capacity of more than 28 million tonnes and approximately 80,000 employees across four continents. Tata Steel Europe also runs a large number of distribution/processing, manufacturing and consulting businesses, as well as regional sales offices, in Europe, the Middle East, the USA and other parts of the world.

- **TETLEY:**

In the year 2000 Tata Tea acquired the UK heavyweight brand Tetley for 271 million pounds. This deal which happened to be the largest cross-border acquisition by any Indian company at that time marked the culmination of Tata Tea's strategy of pushing for aggressive growth and worldwide expansion.

The acquisition of Tetley pitch forked Tata Tea into a position where it could rub shoulders with global behemoths like Unilever and Lawrie. The acquisition of Tetley made Tata Tea the second biggest tea company in the world. It supplies high quality tea products to the international market. Tetley's manufacturing and distribution business is spread across 40 countries and sells over 60 branded tea bags. It is the largest tea company in the United Kingdom and Canada and the second largest in the United States by volume

TATA / TATA BRAND

In tandem with the increasing international footprint of Tata companies, the 'Tata' brand has also gained international recognition. Brand Finance, a UK-based consultancy firm, valued the 'Tata' brand at \$21.1 billion and ranked it 34th among the top 500 most valuable global brands in their BrandFinance® Global 500 2014 report.

The revenue of Tata companies, taken together, was \$108.78 billion in 2014-15, with 68 percent of this coming from businesses outside India. Tata companies employ over 610,000 people worldwide.

Tata companies have garnered enormous goodwill through their contributions to not only industrial development but also through their philanthropic activities by actively supporting an assortment of causes, institutions and individuals in a wide variety of areas in geographies in which they operate.

MOROCCO – Tata Province

The whole issue of our application being objected to at the first stage began when we were informed that "Tata" is the name of a province in Morocco and listed in ISO-3166-2 standard.

The information available on the internet reveals that the said province "Tata" is a remote town in south-western Morocco with a population of 15,192 according to the country's 2004 census. "The Tata town lies on the N12 highway between to the north-east of the regional capital Guelmim and to the south of the neighbouring region of Souss-Massa-Drâa. It is also near to Algeria, although due to the remoteness of the area there is no border crossing". (https://en.wikipedia.org/wiki/Tata,_Morocco).

TATA is recognized as a Well Known Mark in Morocco by various Courts. Tata companies have for long been associated with the Kingdom of Morocco and are an active partner in the economic development of the Country. Tata Companies like Tata Motors, Tata Chemicals, Tata Consultancy Services, Tata Steel, Tata Communications, Indian Hotels, Voltas, Rallis India etc are engaged in manufacture/ supply of various products and providing services to consumers in Morocco.

Tata Sons has Trademark registrations for the mark "TATA" in Morocco under various industry segments like clothing and leather goods, automobiles, construction, communications, software etc. The detailed list alongwith Trademark Certificates is attached as Annexure "A". There has been no instance of the Moroccan Trademark authorities objecting to our Trademark applications on any ground including to the ground of national importance of the word "TATA" or its similarity with the name of any region in Morocco. Moroccan law does not impose any restrictions as to use of any trademark or domain names which coincide with the name of Moroccan cities. (Trademark protection provisions of Article 135 of the law no.17-97).

We have also successfully opposed applications for registration of the Trademark "TATA" by other parties in Morocco:

1. "Tata" as a brand is also well recognized in Morocco and has been declared as WELL KNOWN by the Commercial Court of Casablanca in a proceeding in 2009. The Court also ordered cancellation of the trademark "TATA GROUP" registered by Mr. Filali Dahani Mohamed Tajdine and awarded costs. A copy of the said Court Judgement is enclosed as Annexure "B".
2. In another proceeding in 2006, the Moroccan Office for Industrial and Commercial Property upheld the opposition by Tata Sons against a trademark application for the word "TATA" made by Mr. Filali Afifa. The Trademark Authority based its decision on existence of facts supporting the reputation of the Tata Sons' mark "TATA" in Morocco and the possibility of confusion in the mind of the consumers, which may arise as a result of the identical application. A copy of the said decision is enclosed as Annexure "C".

No Objection issued by Moroccan Authorities and Tata Rights:

As detailed in the first part of this letter, we approached, explained and obtained the required no objection letter from the Moroccan Authority of Trademark Rights, Kingdom of Morocco the official body under the Ministry of Industry, Trade and Upgrading of the Economy, in June 2014 in support of our application which was duly vetted and verified by ICANN.

As part of the process of obtaining the said No Objection letter, our lawyers in Morocco have also kept the nominees of Moroccan Government on GAC, ICANN informed about our application with a request to support the same. Attached are the copies of letters sent to them by our lawyers as Annexure "D".

We would like to know whether any objection was raised by relevant Moroccan officials when our application would have been discussed and approval granted after the Extended Evaluation.

Reconsideration Request

A reconsideration request received from one of the officials attached to a Ministry in the Moroccan Government after issue of No Objection from the relevant public authority clearly shows a lack of policy under which these matters are regulated in Morocco. It also points out to a complete lack of cohesiveness and co-ordination in the functioning of various Government Departments in Morocco. Any objection raised after considerable lapse of time clearly amounts to an afterthought and should not be entertained at all considering we do not believe any objection was raised by the Moroccan Representative on ICANN.

As you are aware, ours is a .Brand application and related to our various businesses. The said Tata province in Morocco is not even remotely connected with us or our businesses. As a responsible Business House, we are also ready to give an undertaking to ICANN that we will use *.tata* exclusively for our businesses and will not permit any usage which may lead to a confusion with the geographically induced rights of the said Tata province.

We have incurred considerable expenditure (approx. USD 400,000) and made elaborate plans for shifting our entire portfolio of websites of all our group entities (having more 1000 companies which include 30 listed entities having numerous products and services) to the new gTLD platform. This was going to usher in a major shift in the way internet is being used by Tata companies, our customers and stakeholders globally. This would have also effectively ended a barrage of cyber-squatting and online frauds being perpetrated by unscrupulous elements who are currently using the flaws in the existing structure where domain names are available to almost anyone without proving their rights to the name. In fact, the delegation of *.tata* gTLD to Tata Sons will fulfil major objectives which may have prompted ICANN to launch the new gTLD programme.

We request you to vacate the "On Hold" status considering that the gTLD has already been cleared by you after the extended evaluation period based on the communication of the Moroccan Government considered by you.

We submit that by allowing the registration of the *.tata* gTLD in the name of Tata Sons, no harm or detriment would be caused to the small Tata province in Morocco but by not allowing the registration grave injustice, harm and detriment would be caused to Tata Sons which is seeking a *bonafide* use of its well-known and widely appreciated and respected brand name.

We request that our case be reviewed in the light of the submissions made above and registration granted to us at the earliest.

Yours faithfully
TATA SONS LIMITED

Facts

Upon motion filed with this Court Clerk office, with legal dues paid on 12 September 2008, in which Plaintiff sets out that it is an international holding company of Tata Group big Companies, doing business in various areas in several countries under the well-known trade name and trademark TATA.

Whereas Plaintiff Company states that it also consists of a group of subsidiaries under the name of TATA, such as TATA STEEL, TATA MOTORS, TATA CONSULTANCY SERVICES, TATA CHEMICALS, TATA INDUSTRIES, TATA INFOTECH and TATA POWERS as well as other big business companies in various countries.

Whereas the well known trade name and trademark TATA are both derived from the family name of the company's founder, Jamsetji Tata: a family name not very common in India. The name has the characteristics of an innovative or distinctive name, to make it a distinctive mark of the services, goods and commodities of the family business. By referring to the historical overview of TATA GROUP, we would see that TATA is a business company, founded in 1917 to further the business activities of TATA SONS and MUMBAI, *inter alia*, with a view to promoting and developing the field of industry.

Whereas the trade name, since its first use and throughout decades, has acquired considerable goodwill. The aforesaid name is associated with the Company HOUSE of TATA, denotes its products and transactions and indicates a group of TATA companies and the global high quality of the products manufactured and the services rendered under the trademark TATA.

Whereas the Plaintiff is certainly the proprietor of the trademark by virtue of priority in adoption, use and advertising of the said name. Plaintiff is therefore entitled to exclusively benefit from the reputation of the said trademark. TATA name is a strong indicator of the origin and quality of any product bearing it and refers to the plaintiff company as its originator in the various parts of the world, where the subsidiaries of the Plaintiff Company exist.

Whereas the Plaintiff company has produced a list of the historical phases of development of this company, with the names of the company's branches and subsidiaries and their business areas. This list states that the plaintiff company ranks as one of the top world companies and employs over 60,000 persons, including workers, executives and employees. It has a plethora of companies, branches and subsidiaries, which are active in the various areas of human life in various world countries, including Morocco.

Whereas the Plaintiff company has produced two excerpts of two national newspapers, which state that the Kingdom of Morocco has made an important contract of investment with one of the most important TATA subsidiaries, TATA CONSULTANCY SERVICES, with a view to setting up an international center for communication on offshoring.

Whereas these facts and figures clearly show the importance of the name of TATA as family name, trade name and trade mark as well as its worldwide reputation as a well known mark of one of the largest global companies.

Whereas surely the business transactions of the plaintiff company, which are made under its trademark and trade name TATA, the wide geographic scope where the mark is used, the duration of using the company's trademark and trade name as well as the importance of the facilities, equipments, data, advertising campaigns devoted to its use and promotion in various world countries, including Morocco, all constitute relevant factors which stress the reputation of this mark as well as the right of its proprietor to the exclusive use of the same.

Whereas certainly TATA mark constitutes a well known mark, under Article 6 *bis* of Paris Convention.

Whereas the Plaintiff company produced to the court a copy of a decision issued by Morocco Office for the Protection of Industrial and Commercial Property, pursuant to an opposition made by the Plaintiff company.

Whereas this decision confirmed the prominence of the Plaintiff's mark and issued a decision in Plaintiff's favor, against the trademark registered under the name of TATA by Ms Filali Atika.

Whereas on 4 June 2006, the defendant registered with Morocco Office for the Protection of Industrial and Commercial Property a mark by the name of TATA GROUP under n° 104543 for the designation of the use of products of Classes 12, 16, 35, 36, 38, 39 and 42.

Whereas the similarity between the Plaintiff's mark and the mark, which is imitated and reproduced by the defendant would mislead customers and traders, and create confusion in their minds as well as in the market.

Whereas the defendant's use of a well known trademark of TATA for a great number of products constitutes an unfair competition since it would bring to mind that the products and services, which bear the trademark of TATA, are definitely related to the Plaintiff company as source. The Plaintiff company relied upon the provisions of Article 137 of Act 97/17 and Article 84 of the Code of Obligations and Contracts.

Whereas consequently the Plaintiff company requests the following:

- That the court declares the use of the trademark TATA GROUP by the defendant to constitute an infringement of the Plaintiff's property, particularly its trade name TATA, which is a well known mark of the plaintiff.
- To order that the defendant be prohibited from using, or trading under the said mark

- That a judgment be delivered to cancel the trademark of TATA GROUP registered on 14 June 2006 by the defendant with Morocco Office for the Protection of Industrial and Commercial Property under n° 104543 in respect of classes 12, 16, 35, 36, 38, 28 and 42.
- Whereas the Director of Morocco Office for the Protection of Industrial and Commercial Property cancels the registration of the said trademark from the office registers and produced a set of documents.
- Having regard to Plaintiff's reference of the case to the Public Prosecution and filling of written submissions.
- Having regard to the scheduling of the case for several hearings, which case came finally to be heard at the hearing of 23 March 2009, in which the Attorney for Plaintiff appeared, having confirmed the foregoing, and after a representative for service for the defendant was appointed, the case was taken under consideration for a decision to be rendered at the hearing of 20 April 2009.

After due deliberation :

The Courts decided:

In Form

Whereas the motion filled all the requirements of form prescribed by law, it is admissible in form.

On the merits

Whereas the claim seeks judgment in accordance with the above facts.

Whereas it is established from the documents produced, particularly the excerpts of "l'Economiste" newspaper and the catalogue showing the plaintiff's various activities, that Plaintiff's trademark TATA GROUP enjoys a reputation in Morocco and abroad and thus enjoys the protection prescribed by Article 6 *bis* of Paris Convention.

Whereas it appears from the documents of the file that the Plaintiff is using its trademark in various activities, which cover traffic industry, Jewellery business, telecommunication, hotel business, management, research and car area as well as other industrial, commercial and services areas.

Whereas the defendant registration of the same trademark as the plaintiff's and in areas of business where Plaintiff is using its said mark constitutes an infringement of a legally protected right, falling under Articles 137 and 162 of Act 97/17 on protection of industrial property.

Whereas the cancellation claim is admissible;

In application of the law, 

For these reasons

The court ruling publicly, in first instance and in default with a representative for service, decides:

- To cancel the registration made by the defendant under number 104543 on 14 June 2006.
- To authorize the Director of Morocco Office for the Protection of Industrial and Commercial Property to enter the judgment when becoming final, on the National Trademarks' Register.
- To prohibit the defendant from using the mark TATA GROUP and trading under the same.
- To make the costs upon the defendant

Whereof, the judgment was entered into on the same day, month and year as above

KINGDOM OF MOROCCO

MOROCCAN OFFICE FOR INDUSTRIAL
AND COMMERCIAL PROPERTY

OMPIC

DECISION N° 1401
RULING ON OPPOSITION N° 231
DATED 13/09/06

Opponent : *TATA SONS LTD*

Representative : *CABINET PATENTMARK*

Trademark N° :

Against

The products and services are mentioned below.

Applicant : *FILALI AFEFA*

Application for registration N° : 10455

ACCORDING TO LAW N° 17/97

TATA

The products and services are mentioned below.

DECISION

RULING ON AN OPPOSITION

THE DIRECTOR OF THE MOROCCAN OFFICE FOR INDUSTRIAL AND COMMERCIAL PROPERTY;

Considering the law 17-97 concerning protection of industrial property, as modified and completed by law 31/05, and notably its articles 148.1, 148.2, 148.3, 148.4 and 148.5;

Considering decree No. 2-00-368 taken for the application of the above-mentioned law 17-97, as modified and completed;

Considering law No. 13-99 carrying creation of the moroccan office for industrial and commercial property;

I- FACTS AND PROCEDURE

The application for registration N° 104551 was filed by FILALI AFIFA

Bearing TATA sign on 14/06/06

This sign is submitted as intended to distinguish the following products and/or services:

CLASS(ES)	DESIGNATED PRODUCT(S) AND SERVICE(S)
16	Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives (glues) for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks.
35	Advertising; business management; business

	administration; office functions.
36	Insurance; financial affairs; monetary affairs; real estate affairs.
38	Telecommunications.
42	Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; legal services;

This application was published in the OMPIC gazette
No. 2006/9 of 13/07/06.

On 13/09/06, TATA SONS LTD opposed its registration.

CLASS (ES)	DESIGNATED PRODUCT(S) AND SERVICE(S)
------------	--------------------------------------

II- ARGUMENTS OF THE PARTIES

A- THE OPPONENT

TATA SONS LTD asserts, in support of its opposition, the arguments set out below:

On notoriety

The notoriety of the trademark TATA might suffer from the use of a trademark bearing the same name which does not comply with the quality requirements to which the products of the opponent are subject to.

On comparison of the products

The opponent opposes the products as a whole and puts forward that the trademark concerns a large number of activities of which engineering, materials, energy, chemicals, services, consumer products, information and communication systems.

On comparison of the signs

The registration of the contested application can mislead the tradespeople and the public in general on the origin of the trademark who can think that there is a partnership with TATA SONS Ltd.

B- THE APPLICANT :

No observation in answer to the opposition has been submitted to the office within the time of the procedure, accordingly, it is necessary to decide upon the opposition.

III- DECISION

On notoriety

WHEREAS the opponent has brought facts likely to support the notoriety of the trademark TATA on the territory of Morocco;

WHEREAS the use of the trademark TATA might lead the public to set up a link between the latter and the trademark of the opponent;

WHEREAS article 137 of law No. 17-97 as modified and completed provides that "Signs may not be adopted as marks where they infringe earlier rights, particularly an earlier mark that has been registered or that is well known within the meaning of Article 6bis of the Paris Convention for the Protection of Industrial Property";

THAT CONSEQUENTLY, the notoriety of the trademark TATA in Morocco is retained with regard to the products and services relative to the above-mentioned activities.

On comparison of the products

WHEREAS the opponent declares that the earlier trademark concerns a large number of activities of which those designated by the application for registration;

THAT CONSEQUENTLY, the products designated by the application for registration and those of the earlier trademark are identical by category which is not contested by the applicant.

On comparison of the signs

WHEREAS the two signs deal with the name TATA.

WHEREAS the contested sign constitutes the identical reproduction of the earlier trademark, and that the reproduction is understood by the resumption of the identical trademark, without modification or addition and that the contested sign constitutes the imitation of the earlier trademark and misleads the consumer;

WHEREAS owing to the identity of the signs and the notoriety of the earlier trademark, the two trademarks cannot coexist without risk of confusion in the mind of the consumer;

THAT CONSEQUENTLY, the denomination TATA cannot be registered without infringing the earlier rights of the opponent on its trademark.

ON THESE GROUNDS

DECIDES for the opposition No. 231

Article 1: The opposition is justified.

Article 2: The application for registration is
rejected.

Monsieur,

Nous nous permettons de vous informer que notre cabinet représente le Groupe TATA SONS LIMITED qui a récemment introduit une demande d'octroi de nom de domaine .tata « **new top level generic domain name (gTLD)** ».

Notant que la ville marocaine de TATA apparait sur la liste the ISO 3166-2 et que le cahier des charges de l'ICAAAN pour les nouveaux gTLDs, il a été demandé à TATA de produire une « NON OBJECTION LETTER » établie par les autorités compétentes du pays concerné.

A cet effet, nous avons pris attache avec le ministère du commerce et de l'industrie qui nous a redirigés vers l'Office Marocain de la Propriété Industrielle et Commerciale. Ainsi, et suite à notre demande de délivrance d'une NON OBJECTION LETTER relative à l'enregistrement de TATA gTLD auprès de l'ICAAAN, non seulement aucune objection n'a été formulée il nous a été confirmé la position du droit Marocain n'imposait aucune restriction quant à la demande formulée par TATA auprès de l'ICAAAN.

Cette position est confirmée par la pratique au sein de l'OMPIC qui a délivrée plusieurs marques TATA et par le fait que le nom de domaine tata.ma a été dument protégé par notre cliente auprès des autorités marocaines.

Ainsi, et en votre qualité de membre du comité consultatif gouvernemental auprès de l'ICAAAN, nous nous sommes permis de vous tenir informé de ces faits afin que la position du Maroc soit uniforme.

Nous comptons sur votre collaboration habituelle

Cordialement
