
Liaison/Point of Contact Reports

Block 15 - GAC Interconstituency Engagement Session 15.1 - Liaison/Point of Contact Reports

Purpose and Background

Over the years, the GAC has named various GAC participants to act (as appropriate) as liaisons, appointees, representatives or points of contact with other ICANN community groups or structures on various ICANN org projects, initiatives and work efforts.

These connections provide valuable opportunities for the governmental perspective to be shared with other members of the ICANN multistakeholder community and can lead to more effective information and collaboration opportunities for the GAC over the long term. The GAC leadership has considered that regular reports from the participants in these activities would benefit GAC members by alerting them to the broader work of ICANN and potentially identifying matters that merit governmental attention.

Agenda

During this session, GAC liaisons, appointees or points of contact will have an opportunity to share the latest information about their respective activities with the GAC membership. Potential oral reports during this session include:

- At Large Advisory Committee - ALAC
- Generic Names Supporting Organization - GNSO
- Country Code Names Supporting Organization - ccNSO
- Security and Stability Advisory Committee - SSAC
- ICANN Fellowship Program
- Accountability and Transparency Review Team - ATRT3
- Second Review of the Security, Stability, and Resiliency of the DNS - SSR2
- Competition, Consumer Trust, and Consumer Choice Review Team - CCT
- Customer Standing Committee - CSC
- IANA Naming Function Review - IFR
