
GAC Meeting with the Root Server System Advisory Committee (RSSAC)

Session 6

Session Objective

The GAC will be meeting with the Root Server System Advisory Committee (RSSAC) in order to facilitate future dialogue. It is intended to introduce the operations of the root server system.

Background

The RSSAC advises the ICANN community and the Board on matters relating to the operation, administration, security, and integrity of the Root Server System (RSS).

The RSSAC consists of representatives from the root server operator organizations and liaisons from the partner organizations involved in the technical and operational management of the root zone.

The [RSSAC Caucus](#) is composed of Domain Name System experts who have an interest in the RSS and who broaden the base of diverse technical expertise available for RSSAC work.

The primary role of the RSSAC Caucus is to perform research and produce publications on topics relevant to the mission of the RSSAC.
