
GAC Opening Plenary Session

Block 1 - GAC Internal Matters

Session 1.1 Opening Plenary

Session 1.2 Follow-Up on ICANN63 Action Items

Session 1.3 GAC 2019 Goals and Work Plans

Purpose and Background

The Opening Plenary session of the GAC gives delegates from all the attending GAC members and observers the opportunity to introduce themselves. During an opening “tour de table”, each delegate in attendance provides their name and the GAC member or observing organization they represent.

This plenary session gives the GAC Chair an opportunity to provide an overview report on what delegates can expect during the coming week of meetings. During the opening Kobe session the GAC Chair will also report on the follow-up regarding any action items identified at the previous GAC meeting in Barcelona, Spain. The Chair will also present information and ideas regarding the GAC Leadership team's priorities, goals and work plans for the 2019 calendar year. GAC participants are invited to share comments on their meeting goals and expectations.

Beginning with ICANN64, the GAC leadership will also offered the opportunity to the GAC representative from the country government hosting the ICANN Public Meeting to provide welcoming remarks to the GAC participants.

Agenda

- Welcome and Introduction of GAC Chair and Vice Chairs
- Tour de Table
- Welcome Remarks from Host Country (TBC)
- GAC Chair Overview of Meeting Week Activities
- GAC Chair review and assessment of ICANN63 Action Items
- GAC Chair presentation of anticipated 2019 priorities, goals and work plans of the GAC Leadership team.
