Session Objectives

The Opening Plenary Session is the first opportunity for GAC participants to gather, introduce themselves and prepare for the meeting week. During this session, the GAC Chair typically offers information and updates to the GAC about developments since the last in-person meeting and preparation for the meeting week ahead.

Background

The GAC opening plenary session gives the GAC Chair an opportunity to provide an overview report on what delegates can expect during the coming week of meetings. That overview will be even more important for this ICANN68 Virtual Policy Forum as it will be only the GAC's second experience with this type of meeting format.

During this opening session, the GAC Chair plans to report on the committee efforts made regarding action items and next steps identified during the previous GAC meeting during the ICANN68 Virtual Policy Forum. GAC participants will be invited to share comments on their meeting goals and expectations.

During traditional GAC face-to-face meetings, the Opening Plenary session gives delegates from all the attending GAC Members and Observer organizations the opportunity to introduce themselves. The revised "virtual" format of this ICANN69 meeting will not enable this capability. Instead, GAC

Support staff will track remote attendance for purposes of meeting records by observing those present in sessions throughout the week in the Zoom rooms set up for that purpose. GAC participants will be asked to indicate the country, territory or organization affiliation in conjunction with their virtual Zoom room name designations.

Recent Developments

Based on its experience during the ICANN67 Virtual Community Forum and the ICANN68 Policy Forum, the GAC leadership team consulted with various committee stakeholders to determine if certain virtual meeting interactions would need to be conducted during the meeting week. Several interactions were re-scheduled to take place at various times before the ICANN69 Annual General Meeting period. The GAC Chair will likely report on pre-meeting interactions with the ccNSO, GNSO and Board-GAC Interaction Group (BGIG). The Chair may also share lessons-learned regarding pre-meeting webinars conducted by ICANN org staff on various topics.

Since ICANN68, the GAC has been an active contributor to a number of ICANN community public forums and cross community efforts including comments regarding the [Third Accountability and Transparency Review Team \(ATRT3\) Final Report](#) and comments regarding [Enhancing the Effectiveness of ICANN's Multistakeholder Model – Next Steps](#). The GAC also produced a Minority Statement on the Final Report of Phase 2 of the EPDP on gTLD Registration Data. Those documents are recorded and tracked on a special web page of the GAC web site and can be located here - <https://gac.icann.org/activity/gac-public-comment-opportunities>.

Since ICANN68, the GAC also sent and received correspondence regarding various matters of importance to GAC members including a GAC Statement on the Final Report of the new gTLD Auction Proceeds Cross Community Working Group. The GAC Leadership also produced a reply to a “quick look” request from the GNSO Liaison to the GAC regarding a Preliminary Issue Report on the GNSO Transfer Policy which recommended a new holistic review of the current transfer policy. Those documents and others are posted and tracked on a special web page of the GAC web site which can be located here - <https://gac.icann.org/advice/correspondence/>.

During the ICANN68 Virtual Policy Forum, the GAC Support Staff noted a number of follow-up matters and action items agreed to among GAC attendees. Those items are tracked via a google collaboration document that can be accessed here - <https://docs.google.com/spreadsheets/d/1q2jygHjk1MQHoUYj2k1hjPDaw5TAebMRWqG98Go6eEY/edit#gid=1067667374>.
