
GAC Opening Plenary Session

Session # 1 - Opening Plenary

Session Objective

The GAC Opening Plenary Session is the first formal opportunity for GAC participants to gather, introduce themselves and prepare for the ICANN Public Meeting week. During this session the GAC Chair also typically (1) provides a “state of the committee” review, (2) summarizes the GAC meeting agenda for the week and (3) identifies topic highlights and priority matters that merit GAC Member focus and attention.

Session Agenda

During this ICANN80 opening session, the GAC Chair will welcome in-person and remote attendees, highlight particular aspects of the meeting week agenda and share logistical information to help all attendees participate effectively during the meeting week. It is traditional for a representative of the government of the country hosting the ICANN public meeting to offer brief welcoming remarks during the opening plenary session.

The Chair will also highlight a number of substantive and operational matters that the committee is currently addressing and identify a number of work efforts that will attract committee attention in the coming months.

In this hybrid meeting format the committee will also engage in the traditional “tour de table” ceremony during which all GAC delegates will be invited to introduce themselves. First, in-person delegates will identify themselves, followed by remote participants who raise their hands remotely to indicate their desire to speak. Delegates will be invited to share comments on their meeting goals and expectations.

Time permitting, GAC members will review the Communiqué drafting process for ICANN80. The process has progressively evolved in the past several years and attendees will be familiarized with how some of those recent innovations will be encompassed for this public meeting.
