

GAC Early Warning – Submittal Africa-GA-42560

Application ID:	(Ref# 1-1165-42560) 1-1165-42560
Entity/Applicant Name:	Dot Connect Africa (DCA)
String:	.Africa
Early Warning Issue Date:	20 November 2012

Early Warning Description - This will be posted publicly:

The Government of the Republic of Gabon wishes to express its objection to the application submitted by Dot Connect Africa (DCA) for the gTLD .Africa.

The DotConnectAfrica application as revised, does not meet the requirements for support from African governments as described in the new gTLD Applicant Guidebook.

This domain should be managed by the African Union Commission (AUC) as a geographic gTLD for the benefit of the Africa region as the administrative organ of the African Union, a union of all but one African government. The African Union Commission (AUC) has the mandate of African governments to ‘establish dotAfrica as a continental To-Level Domain for use by African stakeholders including organisations, businesses, individuals and others with guidance from African Internet Agencies’ and ‘to set up the structures and modalities for the implementation of dotAfrica project’ as provided for in the 2010 Abuja Declaration.

The DotConnectAfrica .Africa application (1-1165-42560) fails to meet the minimum requirements prescribed by ICANN in the gTLD Applicant Guidebook concerning geographic names. It is a geographic string application that does not have the requisite minimum support from African governments.

Reason/Rationale for the Warning - This will be posted publicly:

GAC Member(s) to indicate the reason and rationale for the Early Warning being filed.

1. DCA’s Application lacks the requisite Government Support

- a. Paragraph 2.2.1.4.2 (section 2-16) of the Applicants’ Guidebook prescribes that certain applied-for-strings may qualify as “Geographic Names” and must therefore be accompanied by documentation of support or non-objection from the relevant governments or public authorities. In particular, the guidebook requires at least 60% of the relevant national governments in a region to provide documentation in support of new applications for geographic strings and there must be no more than one written statement of objection.
- b. Africa is a clearly designated geographic region as defined in the UNESCO “Composition of macro geographical (continental) regions, geographical sub-regions, and selected economic and other groupings” list.
- c. Being a Union of 54 (fifty four) African states and specifically being mandated by these states to “*Set up the structure and modalities for the Implementation of the dotAfrica (.Africa) project*” the AUC is in an authoritative position to declare African government support or opposition to any “Africa” geographic string application.

Supporting GAC Members (Optional):

I agree to include the supporting GAC members in the publication of this Early Warning

Possible Remediation steps for Applicant - This will be posted publicly:

GAC Member(s) to identify possible remediation steps to be taken by the applicant

- The applicant for the string tries to address the concerns raised by the Early Warning
- The applicant should withdraw their application based on the information provided above
- The applicant should apply for another string.
- The applicant should engage in a discussion with the AUC to agree on how her experience in the Internet field can be utilised to benefit the African continent in ways that will not conflict with positions taken by the African Governments.

INFORMATION FOR APPLICANTS

About GAC Early Warning

The GAC Early Warning is a notice only. It is not a formal objection, nor does it directly lead to a process that can result in rejection of the application. However, a GAC Early Warning should be taken seriously as it raises the likelihood that the application could be the subject of GAC Advice on New gTLDs or of a formal objection at a later stage in the process. Refer to section 1.1.2.4 of the Applicant Guidebook (<http://newgtlds.icann.org/en/applicants/agb>) for more information on GAC Early Warning.

Instructions if you receive the Early Warning

ICANN strongly encourages you work with relevant parties as soon as possible to address the concerns voiced in the GAC Early Warning.

Asking questions about your GAC Early Warning

If you have questions or need clarification about your GAC Early Warning, please contact gacearlywarning@gac.icann.org. As highlighted above, ICANN strongly encourages you to contact gacearlywarning@gac.icann.org as soon as practicable regarding the issues identified in the Early Warning.

Continuing with your application

If you choose to continue with the application, then the “Applicant’s Response” section below should be completed. In this section, you should notify the GAC of intended actions, including the expected completion date. This completed form should then be sent to gacearlywarning@gac.icann.org. If your remediation steps involve submitting requests for changes to your application, see the change request process at <http://newgtlds.icann.org/en/applicants/customer-service/change-requests>.

In the absence of a response, ICANN will continue to process the application as submitted.
