
Agenda Item 20: PSWG Meeting

Issue

The meeting of the Public Safety Working Group is an opportunity for GAC Members and the wider ICANN Community to engage with the working group on its current activities and plans.

During ICANN61, and while subject to change based on developments in the run up to the meeting, the PSWG is expecting to discuss topics such as:

- **Whois compliance with GDPR** and any other related processes such as the Next Generation RDS PDP, the RDP Pilot Program or the ongoing RDS Review Team
- **DNS Abuse Mitigation**, including the Domain Abuse Activity Reporting (DAAR) Project and ICANN Consumer Safeguards initiatives
- **Working group matters**, including elements of the PSWG Work Plan and distributing the group's workload among working group members:

GAC Action Required

GAC Members interested in engaging with the PSWG on its activities, any of the above topics or seeking clarification on the proposed Work Plan for endorsement during ICANN61 (see briefings for Agenda Item 11) are invited to join and participate in the meeting.

Current Position & Recent Developments

Please refer to briefings for [Agenda Item 11](#) and [Agenda Item 21](#) for background information and update on Abuse Mitigation and Whois compliance with GDPR developments respectively.
