
Agenda Item 7: Meeting with Public Technical Identifiers (PTI)

Issue

PTI Board members have been invited by the GAC to provide an update on the organisation's activities and answer any questions that GAC members may have.

GAC Action Required

In preparing any queries that they may have for the PTI Board, the GAC should note that:

- [PTI](#) was established in 2016 as an affiliate of ICANN, as part of the transition of the IANA oversight function from the US Government to ICANN.
- It operates the [IANA](#) (Internet Assigned Number Authority) functions of:
 - **Domain Names:** Management of the DNS Root, the .INT and .ARPA domains and an IDN practices resource.
 - **Number Resources:** Coordination of the global pool of IP¹ and AS² numbers, primarily providing them to Regional Internet Registries.
 - **Protocol Assignments:** IP numbering systems are managed in conjunction with standards bodies.
- The PTI Board comprises:
 - Kim Davies (President)
 - Akram Atallah
 - David Conrad
 - Lise Fuhr
 - Wei Wang
- PTI has its own Operating Plan and Budget. The draft ones for FY20 are [currently posted](#) for public comment.
