4.1 Introduction to Breakout Concept

- Breakout format well-received at ICANN77 CDW
- Useful tool for making connections and discussing topics in an informal setting
- Presence of ICANN GE and GSE staff to observe, facilitate or inform discussions
- Expected reporting outputs from each group
- Availability of flip charts to collect input
- Post-meeting reporting to the GAC by support staff

4.2 Expected Outputs

Identify the key DNS/Internet topics that are important to your government and that are important (collectively) in your geographic region

4.2 & 5.2 - Starter Questions

- 1/ Outside the context of the GAC, how do government representatives in your region collaborate and interact on Internet/DNS matters?
- 2/ How is ICANN viewed by governments in your region and what can be done to enhance the perception of ICANN in developing countries?
- 3/ From your delegation perspective, and considering the ICANN78 key topics for discussion in the GAC this week, which issues in your region do you believe merit particular attention and why?
- 4/ What issues (policy, operations, etc), are of concern to your government/region that you believe need to/should be discussed within the GAC?
- 5/ How can regional participation by GASC members be improved?
