

RAA & RA Amendments for DNS Abuse

Meaningful baseline obligations for Contracted Parties to take reasonable and appropriate action to disrupt and/or mitigate DNS Abuse and to allow ICANN Compliance to enforce it accordingly

- ★ **Creating clear requirements for a safer DNS**
 - ★ **Specifying reasonable, achievable, and enforceable obligations**
 - ★ **Drafting targeted changes to the RAA and RA with precise and effective updates**
 - ★ **Remaining within ICANN Policy boundaries and processes**
 - ★ **Understanding that obligations are a floor, not a ceiling**
 - ★ **Not punishing good actors who already take action on DNS Abuse**
-
