- **Mr. David Kanamugire**

Chief Executive Officer, National Cyber Security Authority of Rwanda

- **Mr. Barrack Otieno**

General Manager, Africa Top Level Domains Organization

# Possible Future Developments 1/2

---

- From the [GAC Public Comments](#) (17 July 2023)
  - Proactive monitoring and enhanced transparency
  - The inevitable evolution of DNS Abuse (and possible need for periodic review of the definition of DNS Abuse)
  - Recognizing the need to address DNS Abuse inside and outside of ICANN
  - Policy Development Processes
    - Guidance on Key Terms
    - Due process considerations
    - Setting thresholds to trigger policy responses
    - Training

# Possible Future Developments 2/2

---

- Question for GAC Discussion:
  - What are the thoughts of the GAC on any prospective Policy Development Processes pertaining to DNS abuse which build upon the foundation created by the new contract obligations, and in advance of the next round of new gTLD applications?

# ICANN80 Kigali Communiqué Discussion

---

- Advice?
- Issues of Importance
  - GAC expectations and future work
  - Strategic plan
