

SSAD Supplemental Recommendations Overview

ICANN86

9 June 2026

Overview of Assignment Form / “Charter”

History and Background: How did we get here?

Assignment: Propose modifications to 18 SSAD recommendations based on specifically-identified parameters

Timing: delivery to GNSO Council by February 2027

Reminder of Assignment

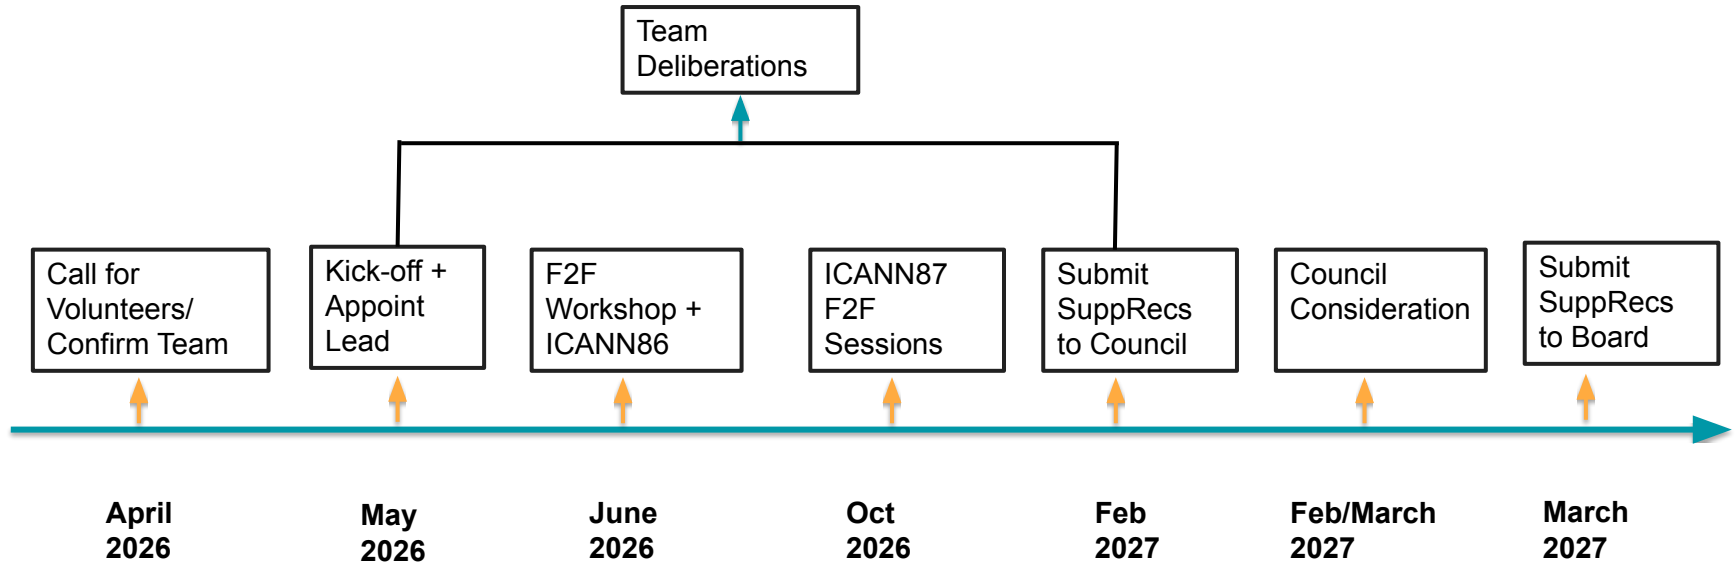

Assignment Form: Contains background information, assignment details, supplemental documents, and additional information regarding the SRT

Limited Scope:

Within Scope	Out of Scope
 Consider the RDRS Standing Committee's analysis	 Starting recommendations from scratch
 Consider if Board feedback was considered	 Prolonged discussion of grammatical changes
 Consider if it is implementable	 Seeking a perfect solution that only suits a particular party
 Consider if updated text can be accepted by the GNSO Council	 Prescribe implementation details
 Consider if updated text is Board-ready	

Draft High-Level Timeline Milestones

The SRT discussed Recommendations 1, 2 (on authentication) and 10 (on SLAs) on Day 0.

The SRT is discussing Recommendations 6 (priority levels) and 8 (contracted party authorization) throughout ICANN86.
