Context & Timeline

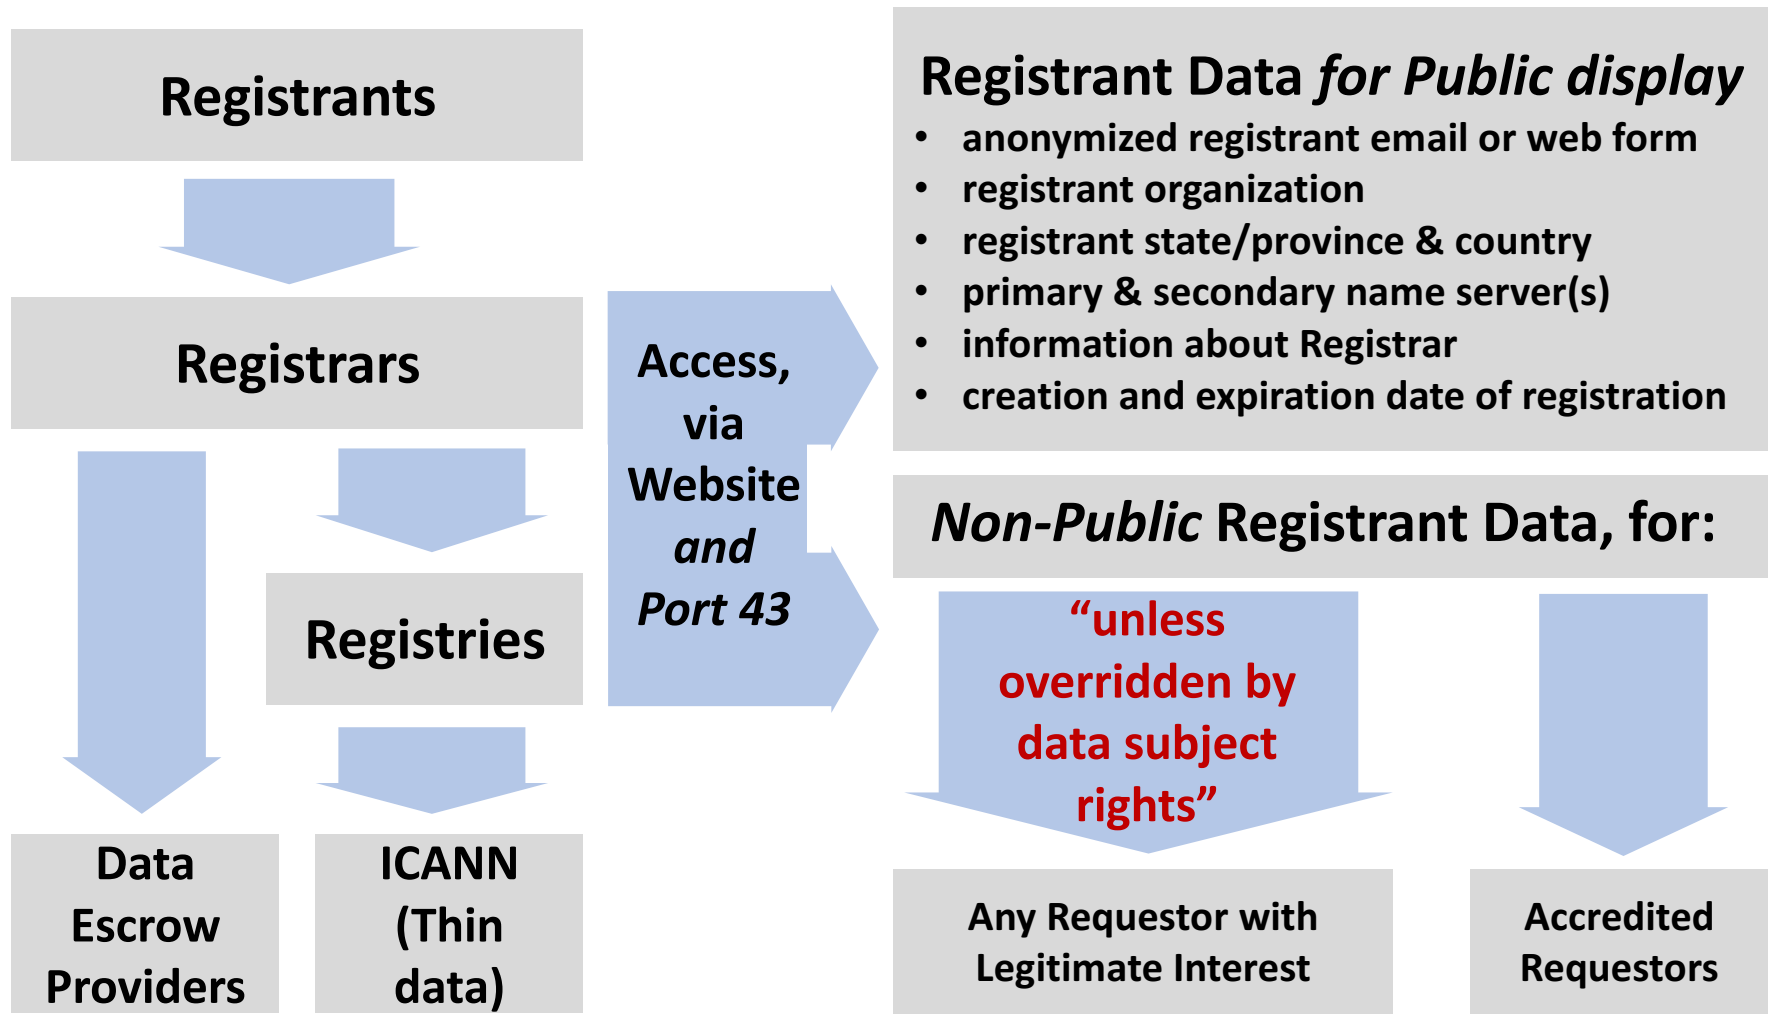

Current *Temp Spec* Obligations for Registries and Registrars:

4. Access to Non-Public Registration Data

4.1. Registrar and Registry Operator **MUST provide reasonable access to Personal Data in Registration Data to third parties on the basis of a legitimate interest pursued by the third party**, except where such interests are overridden by the interests or fundamental rights and freedoms of the Registered Name Holder or data subject pursuant to Article 6(1)(f) GDPR.

from p.19 of the Temporary Specification approved by the ICANN Board, 17-May-2018

Importance / Basis for Authenticated Access to Data – D Taylor

The Past

- Reverse WHOIS: Pattern of bad faith: One of the key elements when bringing a UDRP
 - A pivotal pointer for a Complainant to see if the domain name registration a one off / accident / genuine fan site or part of a targeted infringement / phishing campaign
- <http://www.wipo.int/amc/en/domains/search/text.jsp?case=D2014-2015>
- <http://www.wipo.int/amc/en/domains/search/text.jsp?case=D2017-1934>
- <http://www.wipo.int/amc/en/domains/search/text.jsp?case=D2016-2380>

The Present

- Post 25 May 2018 Public WHOIS dramatically changed. Now behind a curtain
- Need for legitimate access
- Radical change but no system for access in sync with this change
- Who is benefitting most from GDPR and WHOIS? Internet phishers and infringers?
- Individual requests to individual registrars with varied results
 - Varied responses: Refusal to provide? Delay providing? Misunderstanding of the law?
 - Manual one to one requesting is time heavy for everyone.

The Future

- With the curtain drawn necessity to have an access and accreditation system
 - NB for a legitimate interest, not unfettered access by anyone to the personal data of individuals for any purpose.
