GAC Early Warning – Submittal Vin-LU-23177

Application ID: 1-1538-23177

Entity/Applicant Name: Holly Shadow, LLC

String: .vin

Early Warning Issue Date: 20 November 2012

Early Warning Description:
The string relates to a product defined by the EU regulation.

Reason/Rationale for the Warning:
Regarding the tld .vin, Luxembourg is of the opinion that a too lax use of this tld may have adverse consequences for the wine market of the EU Member States. In addition, we want to point out that by annex Xlb of Council regulation (CE) n°1234/2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation) wine is defined as “the product obtained exclusively from the total or partial alcoholic fermentation of fresh grapes, whether or not crushed, or of grape must”. A very strict framework of oenological practices and labelling rules add to this definition. Any product that does not comply with these rules cannot be marketed under the denomination “wine” or “vin” in French.

Moreover, one should be reminded that the recognition and the protection of geographical indication in the wine sector are also the object of a specific regulatory framework in the CMO regulation.

Hence, for the award of the tld .vin it is important to have strict rules verifying a close relation with the wine.
